EXPAND YOUR BUSINESS

QL® Inflation Devices

Atrion Medical®
Custom Built

The QL® Inflation Device

Is perfect for a wide array of applications such as balloon catheterization, stent deployment and fluid delivery.

Available in a variety of configurations so you can be sure you get exactly what you need.

Smart Design

Its stable design and ergonomic handle make it easy to control. The quick latch mechanism allows for one-handed deflation, even at full pressure.

The clear barrel provides medical staff with a precise view of the content and volume allowing the user to observe the purging of the bubbles.

Broad Applications

- Cardiology
- Peripheral
- Radiology
- Urological
- Gastrointestinal
- Neurology
- Orthopedics
- Biliary
- Pulmonary
- ENT
For Your Custom Needs

Regulatory Approvals
Approved for use in U.S., Canada, Europe, Asia and Latin America.

Custom Ordering
Available in a variety of configurations. Custom name and logo can be printed on the gauge, box and label. Minimum order quantities apply.

Service
We work with our customers to ensure orders are built to specified requirements and delivered on time.
